Our A4 oxygen sensors are designed for your Audi computer's voltage requirements. They deliver data from your exhaust output, which tells your engine how much fuel to intake at any given time. The right fit is essential in order to properly adjust for changes in temperature, altitude and engine load.

~~2003 Audi A4 Oxygen Sensors & Components at CARiD.com~~

Your Audi A4's oxygen sensor is an essential part of the car because it determines the correct fuel-to-air ratio for the engine. However, it only has a limited service life particularly for older models, and it could lead to different problems once it malfunctions.
