Aquaculture Law And Policy Global

Students and scholars of environmental law and politics will find this contemporary volume an invaluable addition to the limited academic literature critiquing aquaculture law and policy. Policy makers, international bodies and NGOs will also find its insights particularly informative when ensuring sustainable aquaculture regulation and development.

Aquaculture Law and Policy - Taylor & Francis Group

2.1 Aquaculture policy In most countries a specific aquaculture policy document does not exist and aquaculture is normally included basically in the Fishery Sector Development Policy, document. It is also mentioned in other strategic policy documents; those for Industry and Environment are the two major policy documents concerned.

Laws, regulations and policies

Aquaculture contributes significantly to the country's food security, employment and foreign exchange earnings. Aquaculture is growing much faster than capture fisheries. However, the global position of the Philippines in aquaculture production has fallen steadily from 4 th place in 1985 to 12 th place today. The Philippines now contributes ...

targeted for their resources.

2. Aquaculture policy, administration and legislation

The National Aquaculture Act of 1980 is a U.S. federal law that is intended to promote and support the development of aquaculture. The act aims to encourage development of aquaculture in the United States because aquaculture has the potential to reduce the U.S. trade deficit in fisheries products, augment existing commercial and recreational fisheries, and produce other renewable resources.
