The automatic in the 335i is great, but nothing replaces the direct control and joy of rowing your own gears. No automated transmission can replicate that. So check your priorities. If you value having control and shifting for yourself to the joy of it, then buy a manual. (Also, if you want BMW to continue to sell manuals in the US, buy a manual).

Despite kicking out 60 more horsepower than the 328i's turbocharged 2.0-liter four, the 335i's 300-horsepower turbocharged 3.0-liter inline six does not feel much stronger. BMW's official test track numbers back up this impression. Pair both engines with a manual transmission, and the six is only 0.3 seconds quicker to sixty, 5.4 vs. 5.7.

swappers nearly made me surrender my manual mantra. As previously reported, the 135i's auto feels cheaper and slower-witted than the sublime ZF-equipped 335i.

### **335i manual or auto (never driven stick) : BMW**

How could it have more torque? The engine generates the power, the tranny sucks up the power. In all honesty, an automatic is less efficient than a manual transmission. That said, the automatic 335i is faster.

The 335i is simply a junior version of the 535i, but not where it counts. The 335i's acceleration with a manual transmission is quick and decisive. The automatic transmission in the 535i makes the 3-liter inline-six only slightly less enthralling. It doesn't take much, though, to get either up to 90 mph in a hurry.
