### [Profile Management 7 - Citrix Docs](#)

Information. Feature Description. To address two Outlook-related performance issues in Profile Management, version 7.18 introduced a new user-based Outlook search index database, stored as a VHDX file. In addition, the Outlook cache (.OST) file can also be stored as a VHDX file. Note: Profile Management provides a default VHDX capacity of 50 GB. Plan your storage quota accordingly.
