News writing follows a basic formula. While styles can diverge more dramatically depending on the kind of story—a feature story may look and sound very different than a hard news story—all news stories are cut from the same mold. The first element of news writing is, of course, to deliver the news.

(System.ServiceModel) | Microsoft Docs

You can also specify the members of a class as private or protected which we will discuss in a sub-section. Define C++ Objects. A class provides the blueprints for objects, so basically an object is created from a class. We declare objects of a class with exactly the same sort of declaration that we declare variables of basic types.
