answer questions.

~~The Elements — Glencoe~~

The air you breathe is made up of many elements like oxygen, nitrogen, and argon. Elements are everywhere. They are the building blocks of everything on Earth: your dog, the mountains, your car, your eyes, and, yes, even beer. In this lesson, we will discuss what an element is, how elements are written as symbols,...

~~What Are Elements?—Video & Lesson Transcript | Study.com~~

The single most famous—yet misquoted—line of dialogue from the movie is a classic example of understatement. Having just come literally face to face with the shark now surmised to be perhaps 25 feet long and which has proven capable of chewing a full-sized woman and leaving behind but a few bones and tissue, Brody slowly backs away from the water and into the cabin area, where he quite ...
