communication (technical/engineering drawing) may prove irreplaceably useful. Drawing (just like photography) is one of the basic forms of visual communication. Drawing is used to record objects and actions of everyday life in an easily recognizable manner. There are two major types of drawings: artistic drawings and technical drawings.

Circles on engineering drawings are usually either spheres, holes or cylinders of some description. The dimension refers to the diameter, and the diameter symbol is  $\varnothing$ . Holes equally spaced on a pitch circle can be dimensioned as shown below. The  $\varnothing 40$  dimension can also be referred to as the PCD or Pitch Circle Diameter.
