Before I started teaching at the university, I was in pastoral ministry. I spent a portion of that time doing doctoral work in systematic theology at TEDS during which I took a course with Dr. John Kilner on the Bible, Bioethics, and Cultural Engagement and became well-acquainted with The Center for Bioethics & Human Dignity and its publications.

Wasson directs the Bioethics Honors program and believes Stritch and Neiswanger's commitment to student reflection and professional formation are what differentiate Loyola from other medical programs. For instance, Neiswanger faculty engage students in challenging conversations about treating a dying patient or end-of-life care.

Myra's Reflections. Beyond a deep sense of loss, the thing that saddens me most about writing this tribute to Beth Smith is that many who read it will never have known this remarkable woman. I met Beth approximately 30 years ago as the director of a brand-new not for profit, Midwest Bioethics Center (now the Center for Practical Bioethics ...

## **TO BE OR NOT TO BE: REFLECTIONS ON MODERN BIOETHICAL CHOICES**

Everyday Bioethics reflects our commitment to making this scholarship accessible, a space where we translate these often complex issues into everyday language. As part of CBHD's Bioethics for the Church initiative, Everyday Bioethics offers two kinds of resources.

"Everyday Bioethics" suggests a new perspective on the relationships between science, ethics and society. It is based upon the distinction and integration of two fields: the frontier bioethics, which examines the new development of biomedicine; and the bioethics of everyday life, which concerns all people around the world.

In a second post, I return to Me Before You and offer further reflections on the specific issues raised there. Bioethical dilemmas are being explored everywhere. Moral questions embedded in the application of medical technology are not reserved for elite medical roundtables. Rather, ethical decisions are the prevailing substance of entertainment.

## **About Everyday Bioethics | Everyday Bioethics**

Everyday bioethics will be read with great gain by everyone involved in bioethics, whether as academics, students or the interested public. The question of what developments in biotechnology mean for the everyday lives of people in very different social and cultural contexts will be of particular interest for professionals working in public and international health.

Used in conversation the term “bioethics” often leads to blank looks. As we understand it, bioethics assesses the moral value or appropriateness of discoveries made in science, medicine, and technology and the impact of their use on our humanity as individuals, as families, as communities, and as a society.

In a previous article in this forum, I wrote about how COVID-19 could serve as a jumping-off point for raising issues of bioethics in the church, issues that extend far beyond the current pandemic. Two examples I gave were of issues related to vaccines/public health and healthcare disparities. However, there is another topic that is just as easily raised and is perhaps even

Terrible, too, was the sight of people dying like sheep through having caught the disease as a result of nursing others. This indeed caused more deaths than anything else. For when people were afraid to visit the sick, then they died with no one to look after them . . . . The bodies of the dying were heaped one on top of the other, and half-dead creatures could be seen
