~~Fast fashion and sustainability – a moral lie | f trend~~

Fast fashion allows our desires of luxury clothes to come true and sustainability is not something style conscious consumers link to fashion (Joy , et al., 2012, p. 276). Sustainability is not promoted enough in magazines and by big fashion labels, and with a hefty price point it's no wonder young consumers don't buy into the trend (Claudio, 2007).

~~Can Fashion Be Sustainable?~~

Being trend driven, fast fashion plays on our insecurities of wanting to look good and 'keep up with the Joneses.' It's a toxic industry where the people who are making the clothing and the environment are paying a high price. Hopefully, these facts about the fast fashion industry that will inspire you to embrace the slow and sustainable fashion movement.

A number of leading fashion businesses are pioneering sustainability initiatives, motivated by both environmental concern and commercial opportunity. H&M has led the way in reducing the carbon footprint of its store network and has pledged to double its energy productivity by 2030.

## ~~Is fast fashion giving way to the sustainable wardrobe ...~~

Some fast fashion is cheap, nasty and will fall apart after a few washes. The same can be true of designer clothing. It is a misconception that expensive in any way equates to sustainable, or, as Dr Sumner says, durable (though it's worth remembering that cheap clothes often mean labour exploitation).
