power and make it work but would like to know where the dang relay is so I can replace it.

Euro Motoelectrics

Lessons Learned: 1: 14 year old fuel pump relays DO go bad. 2: 4 of the relays are the same model number. 3: BMW Dealers shops do not always have your best interests in mind, especially ones which are tagged on to a big Harley Dealer. The BMW is a 2000 R1150GS with a TourTech 41L gas tank, with over 110,000 miles. Maintenance has been consistently done by the BMW Dealer in Southern Oregon.

fuel pump relay or fuse? | Toyota Tacoma Forum

at the control opening relay, we're getting power at times..and no power later on. The truck wont start at all unless we bypass the fuel pump and run the fuel pump on a seperate battery. The control opening relay has 5 prongs. Blue wire (FP) at times has power all the way back to the fuel pump, yet the fuel pump will not come on.
