GameMaker: Studio will not work with Android right out of the box. The first thing to do is to download the Java 7 JDK. After that, install the Android SDK. Note that you need to just install the ...

~~Game Maker Tutorial A Scrolling Shooter~~

That last video, I saw a brief view on it. 1945 is the game tutorial I was trying to make from the beginner section of the GM. Yeah, I thought it might help to see what he's doing. I haven't done that one, yet, myself. But I did glance at the end and saw his was working fine. Hopefully, it'll be help to you. And for me when I get to it.

~~GameMaker: Studio tutorial for beginners - Android Authority~~

With the clown game I couldn't get the scoreboard to show up at all. Whatevs I thought I'll just move on to the next tutorial as I'm sure the scoreboard will be touched on there. I just completed the tutorial for the Scrolling Shooter Part 1 and this game doesn't work as the tutorial intends it to what-so-ever.

~~Parallax Scrolling In Game Maker - Part 1~~

GMS2 camera tutorial including a smooth scroll and a zoom feature. We will be using GML, not drag and drop. =Links=-<http://www.almightyzentaco.com>

~~[GMS-S] Creating A Simple Shooter Game Like 1945 - YoYo Games~~

In this course, instructor Alan Thorn will be walking through the process of creating a side-scrolling platformer game from scratch using GameMaker: Studio. Here he will be covering topics such as sprite creation, tilesets, collision detection, and any scripting necessary to get the game up and running.

~~[GMS-S] (Advanced) Advanced Platformer tutorial Series ...~~

(Note: creating a custom font is relatively easy and there are many how-to tutorials available on the web.) The message string is prepended and appended with a blank string the length of the message window so the scrolling text cleanly enters and exits the message window while looping.

~~How to create scrolling text in GameMaker | Heavy Kettle~~

The game we are going to make to test and learn about GameMaker: Studio will be a simple top down shooter in the 1945 style, so in GameMaker, let's start by adding in a couple of sprites and by creating an initial "menu" room for the player when the game starts.

~~Tutorial: A scrolling shooter (with GML) - Henry's Game Blog~~

Part 1: Coding the Player. To code the movement of the player the following scripts need to be made, all scripts in this section are to go in the 'Player' sprite, also, note that variables in caps (e.g. "SCROLL X" and "SCROLL Y") are global variables, and those lowercase (e.g. "x" and "y") are made with the "For this sprite only" option selected.

~~Game Maker Tutorial - 'Side Scroller' 1~~

First double click on the room you want to adjust to make a side scrolling view. Once you have opened up the room properties then click views. Step 2: Checking Off the Four Boxes Then make all of the four boxes with a check box with a check mark.

~~Learn | YoYo Games~~

Scrolling shooters are a very popular type of arcade action game, and are also rather easy to create with a package like Game Maker. In this tutorial we will make such a game and, in the process, you learn a number of aspects of Game Maker, in particular the use of variables.

~~A scrolling shooter~~

Hey Game Makers! In the first part of this tutorial, we'll discuss what parallax scrolling is, how to do it simply using background speeds, and how to do it in a much more complicated way ...
