GSC 10—Garmin
Edge® 530 bike computer provides mapping & performance insights such as VO2 max recovery, to see how your body performs in different environments.

Owner's Manual EDGE 130—Garmin
The speed sensor 2 attaches to the hub of either wheel and self-calibrates with your Edge® cycling computer or compatible Garmin device to give you accurate speed and distance at all times — even without a head unit.

SPEED SENSOR 2 AND CADENCE Owner's Manual SENSOR 2—Garmin
Place and hold the speed sensor on top of the wheel hub. Pull the strap around the wheel hub, and attach it to the hook on the sensor. The sensor may be tilted when installed on an asymmetrical hub. This does not affect operation. Rotate the wheel to check for clearance. The sensor should not contact other parts of your bike.
