GRAFT - The Global Risks and Trends Framework - is a new and innovative approach designed to help organizations identify, assess and respond to global risks and trends in order to avoid pitfalls that could threaten an organization's long-term survival.

ISO 31000 - Wikipedia

Risk management is a tool that helps companies evaluate risks in processes and content. It evaluates event data in order to measure levels of risk in an operational context. Risk assessment is repeatable and objective; it allows you to replace an otherwise subjective "gut sense" with a more guided decision-making approach.
