I've seen quite a few mentions of this - but no one seems to have the exact step by step on how to do this. My < 1 yo car isn't blowing all that cold and before I take it to the stealership - I wanted to change this setting. Supposedly it's in VCDS > HVAC > "long coding?" and there's a setting to enable "hot country". I've looked around in VCDS and can't find it (man, I wish they had a search ...
