Demonstration guides and in-class worksheets are provided for some labs, helping instructors make use of NAAP simulations even if they don't assign the accompanying lab. Please visit the instructor information page for more details on using the NAAP labs, or the lab descriptions page for a summary of the NAAP labs.

An actual HR Diagram is provided in the
upper right panel with an active location
indicated by a red x. This active location
can be dragged around the diagram. The
options panel allows you to control the
variables plotted on the x-axis:
(temperature, B- V, or spectral type) and
those plotted on the y-axis (luminosity or
absolute magnitude).

~~Hr Diagram Naap Answers~~

The NAAP HR Diagram Lab explores the Hertzsprung-Russell diagram and those areas necessary to understand the diagram such as (but not limited to) the different kinds of spectrum, spectral classification, and luminosity class. In short, this module provides a fairly in-depth tutorial in reading HR diagrams.
