### [Progress in Colloid and Polymer Science Volume 140](#)

Progress in Colloid and Polymer Science Series Editors: C. Papadakis, A.M. Schmidt, F. Kremer "Progress in Colloid and Polymer Science" serves as a supplementary series to the journal "Colloid & Polymer Science". It publishes topic-related volumes in the area of colloid and polymer science and its interdisciplinary interactions.

### [Intelligent Hydrogels | Request PDF](#)

This volume of Progress in Colloid and Polymer Science assembles original contributions and invited reviews from the priority research program "Intelligent Hydrogels", funded by the German Science Foundation DFG since 2006, with about 25 contributing research groups.

### [Progress in Colloid and Polymer Science](#)

Progress in Polymer Science publishes state-of-the-art overview articles by internationally recognized authorities in polymer science and engineering, one of the fastest growing disciplines. The journal provides a link between original articles, innovations

published in patents, and up-to-date knowledge of technology.

## Intelligent hydrogels in SearchWorks catalog

Progress on intelligent hydrogels based on RAFT polymerization: Design strategy, fabrication and the applications for controlled drug delivery Author links open overlay panel Caihong Xian a Qijuan Yuan a Ziting Bao a Guiting Liu a Jun Wu a b

## Progress in Polymer Science - Journal - Elsevier

This volume of Progress in Colloid and Polymer Science assembles original contributions and invited reviews from the priority research program "Intelligent Hydrogels", funded by the German Science Foundation DFG since 2006, with about 25 contributing research groups.

## Intelligent hydrogels (Book, 2013) [WorldCat.org]

This volume of Progress in Colloid and Polymer Science assembles original contributions and invited reviews from the priority research program "Intelligent Hydrogels", funded by the German Science Foundation DFG since 2006, with about 25 contributing research groups.

## Hydrogels as intelligent materials: A brief review of ...

As a consequence, analyte-responsive hydrogels that mimic these recognitive processes have emerged as a class of intelligent materials. These materials are unique not only in the type of analyte to which they respond but also in how molecular recognition is achieved and how the hydrogel responds to the analyte.

## Publikationsliste Prof. Dr.-Ing. Thomas Wallmersperger ...

Hydrogels actuators (HAs) that can reversibly respond to stimuli have applications in diverse fields. However, faster response rates and improved control over actuation timing and location are required to fulfill their potential. To address these criteria, we synthesized near-infrared light-driven HAs by interfacing genetically engineered elastin-like polypeptides with reduced-graphene oxide ...

This volume of Progress in Colloid and Polymer Science assembles original contributions and invited reviews from the priority research program "Intelligent Hydrogels", funded by the German Science Foundation DFG since 2006, with about 25 contributing research groups.

## Intelligent Hydrogels - Knygos.lt

Nowadays, hydrogels have attracted a growing interest of many scientists in different fields of research. Intelligent hydrogels have found a significant role in a wide variety of applications such as drug delivery systems, tissue engineering, optics, diagnostics and imaging.
