~~Mercury Marine Model 850 85 HP (4 Cylinder) Flywheel ...~~

Just bought a used boat with a Mercury 850 Thunderbolt 1977-79 Serial#4721124. It dies everytime I try to put it in gear, forward or reverse. The shop adjusted the idle high so it will idle but soon as I try to slowly put it in gear it just sputters out. From other threads I have read this seems to be a common problem with the 70s mercs but I have yet to find the solution or fix.
