Action - Oxford Handbooks

Understanding human beings and their distinctive rational and volitional capacities is one of the central tasks of philosophy. The task requires a clear account of such things as reasons, desires, emotions and motives, and of how they combine to produce and explain human behaviour. In *Kinds of Reasons*, Maria Alvarez offers a fresh and incisive treatment of these issues, focusing in particular ...

What are actions? And how are actions to be explained? These two central questions of the philosophy of action call, respectively, for a theory of the nature of action and a theory of the explanation of actions. Many ordinary explanations of actions are offered in terms of such mental states as beliefs, desires, and intentions, and some also appeal to traits of character and emotions.
