Much like a car's seasonal tune-up, a setup should be performed to address the changes a guitar undergoes over time, with adjustments made to the instrument in order to match your preference of strings, pickups and playing habits. A setup can also reveal potential problems before they

become major headaches.

~~Setup and Maintenance—PRS Guitars Support~~

PRS Tremolo Tuning and Setup Hints If the guitar is not returning to pitch after using the tremolo arm, put a little lightweight machine oil under the head of each screw (do not loosen the screws). This will effectively oil the knife-edge of the tremolo.
