### **Regional Economic Outlook May 2010**

The May 2010 Regional Economic Outlook: Middle East and Central Asia reports on the implications for the region of global economic developments and presents key policy challenges and recommendations. A resumption of capital inflows and the rebound in crude oil prices have aided the recovery in the oil-exporting countries of the Middle East and North Africa. The group of oil-importing countries ...

### **Regional Economic Outlook, May 2011, Europe ...**

The special theme this year is regional integration for Africa's economic prosperity—integration not just for trade and economic cooperation but also for the delivery of regional public goods. New research for this Outlook shows that five trade policy actions could bring Africa's total gains to 4.5 percent of its GDP, or \$134 billion a year.

### **Regional Economic Outlook - FINFACTS**

A weak and uneven recovery is underway in Europe. Macroeconomic policies still support the upswing and extraordinary measures are underway to address the sovereign crisis. Now policymakers face the difficult balancing act between continuing their support for the economy and establishing a credible path to policy normalization. Priorities are large medium-term fiscal consolidations and, in the ...

### **Speech: Economic Outlook (May 7, 2010) - Philadelphia Fed**

Economic Snapshot for Central & Eastern Europe. January 14, 2020. Central & Eastern Europe growth is seen shifting into a lower gear this year. The regional economy is seen shifting into a lower gear this year, due to spillovers from a weak Eurozone amid lingering global trade tensions, and as capacity constraints bite harder.

### **Regional Economic Outlook : PNC Ideas Working Capital ...**

Economic Outlook. Now, let me turn to the national and regional economic outlook. As I suggested at the start of my remarks, I believe our nation's economic recovery continues on a sustainable path, with moderate growth and subdued inflation. All of us would like to see faster improvement in the job market. But the recession was very deep.

### **Regional Economic Outlook - IMFConnect**

The May 2011 Regional Economic Outlook: Europe anticipates that recovery in the region will solidify, with recoveries in advanced and emerging Europe likely to be mutually reinforcing. Advanced Europe continues to absorb most of emerging Europe's exports, while the role of emerging Europe as a market for advanced Europe will expand. Chapters discuss the outlook and policy priorities for ...

### **Regional Economic Outlook, May 2013, Sub-Saharan Africa ...**

The Regional Economic Outlook: Sub-Saharan Africa is published twice a year, in the spring and fall, to review developments in sub-Saharan Africa. Both projections and policy considerations are those of the IMF staff and do not necessarily represent the views of the IMF, its Executive Board, or IMF management.

**Regional Economic Outlook: Middle East and Central Asia ...**

A multispeed global recovery is under way, with some emerging markets in the lead and the major advanced economies growing more slowly. This macroeconomic setting has brought a return to easy global financial conditions and high commodity prices—a situation likely to be sustained for some time but unlikely to be permanent. Against that external backdrop, the recovery in the Latin America and ...

**Regional Economic Outlook, May 2014, Western Hemisphere:**

International Monetary Fund, Regional Economic Outlook for Sub-Saharan Africa, January 2017 33 For 2017, only a modest rebound for the region is expected, predicated on prompt policy actions. But risks are significant: Further delays in policy implementation Political risks in some cases Global environment risks (financial market

**Regional Economic Outlook: Europe -- Fostering ...**

Growth remained strong in the region in 2012, with regional GDP rates increasing in most countries (excluding Nigeria and South Africa). Projections point to a moderate, broad-based acceleration in growth to around 5½ percent in 2013–14, reflecting a gradually strengthening global economy and robust domestic demand. Investment in export-oriented sectors remains an important economic driver ...

**Speech: Economic Outlook (September 29, 2010 ...**

Economic Outlook. After declining sharply for a year, economic growth stabilized in the middle of last year and then turned positive, growing at an annual rate of nearly 4 percent in the second half of 2009. The data released last Friday estimate that growth expanded at a respectable 3.2 percent annual rate in the first quarter.
