This entry discusses an extract from the book *Representation: Cultural Representations and Signifying Practices*. In it, Stuart Hall examines stereotyping and how this practice is employed to construct negative representations of people and groups.

*Representation : Cultural
Representations and Signifying ...*

The first article I will be summarizing by Stuart Hall “Representation: Cultural representations and signifying practices” (1997) is a study of the crucial links between language, culture and how shared meanings are constructed and represented within language.

The second edition of *Representation* should enable it to speak to new generations of students and to continue to serve as the authoritative introduction to the theories and politics of meaning and representation in cultural studies. Anyone interested in these matters, whether student, teacher or simply curious intellect, will be glad for the time spent reading this book.

Meaning is always produced within language; it is the practice of representation, constructed through signifying. As described in the previous section, the "real world" itself does not convey meaning. Instead, meaning-making relies two different but related systems of representation: concepts and language.

Representations and Signifying ...

Stuart Hall is a key figure in Cultural Studies, and "Representations" is an introduction to his thought as well. It's a pity this is priced as a textbook, since it's very much worth having as an introductory guide and A fine introduction to cultural studies, with excellent accounts of major theories of representation and identity.
