Hello jamesg, I can see two different styles of tanks. Take a look at this parts diagram 790R 41AD790A734 page B, and look how item number 30, starter housing is connected to the fuel tank. Then look at 790R 41BD790A034 page B, and see how the item number 34, starter housing fits around the fuel tank and half of the fuel spout. Hopefully this will help you figure out which one you will need.

The engine in my 790r is A34 and I can not find any factory service data. The problem I discovered after cutting off the clutch cover is .015" deflection of the drive shaft allowing the flywheel magnet to contact the ignition coil pickup. One spec I will use from the manual is the max of .015" clearance for the fly to coil.
