Nuclear Reactions: Lecture on two-body description
Some background information; introduction to nuclear reactions; elementary scattering theory; models of nuclear reactions; Appendices: angular momentum and spherical harmonies; some useful data. Responsibility: G.R. Satchler.

Introduction to nuclear reactions (Book, 1990) [WorldCat.org]
The final chapters survey applications of the eikonal wavefunction to nuclear reactions as well as examine the important branch of nuclear transport equations. By combining a thorough theoretical approach with applications to recent experimental data, Introduction to Nuclear Reactions helps you understand the results of experimental measurements rather than describe how they are made.

Nuclear Reaction Theory: concepts and applications - Part I
E. Theories of direct nuclear reactions 406 F. Nuclear spin formalism 419 G. Polarized ion sources 424 H. Selected nuclear spin structures and the extreme values of the analyzing powers 432 I. Analytic determination of the extreme A yy points 439 J. Phase shift analysis 441 K. Reorientation effect in Coulomb excitation 445 L.

Satchler - Introduction to Nuclear Reactions | Atomic ...
Review of the first edition: 'Satchler's book, after an excellent introductory chapter, and an extensive section on basic scattering theory, covers in detail all the theories and models which have formed the basis of our understanding of nuclear reactions over the past 20 years.

3 Suggested books G.R. Satchler, Introduction to Nuclear Reactions, Oxford Uni. Press. I. Thompson & F. Nunes, Nuclear Reaction for Astrophysics, Cambridge Uni. Press.

Introduction to Nuclear Reactions: Satchler, G.R ...
This thoroughly revised new edition of Satchler's well-known graduate textbook meets the needs of students and nonspecialists interested in understanding the phenomena of nuclear reactions. Attention is drawn to recent developments, such as the use of relativistic heavy-ion reactions to study quark-gluon plasmas, and the references have been updated.

Introduction to Nuclear Reactions
When we wish to observe an object, we usually illuminate it with a beam of light. The light is then reflected, refracted, diffracted, absorbed, in various ways. By interpreting our measurements on...
