~~The Architect's Handbook of Professional Practice ...~~

It is a great resource for any architect considering starting their own practice or just wanting to a broader understanding of the industry. The Architect's Handbook of Professional Practice is an example of excellence. Similar texts aspire to this precision but consistently fall short.

~~The Architect's Handbook of Professional Practice ...~~

The Architecture Student's Handbook of Professional Practice opens the door to the vast body of knowledge required to effectively manage architectural projects and practice. A professional architect is responsible for much more than design; this book is specifically designed to help prepare you for the business and administrative challenges of working in the real-world—whether you are a student or are just starting out in practice.

~~The Architect's Handbook of Professional Practice, 15th ...~~

The handbook describes why architects are uniquely qualified to make important professional contributions in the political area. The recognition that a political dimension exists in architectural practice is an important first step for the AIA, and I applaud them for including it in the handbook."

The Architects Handbook of Professional Practice (AHPP) Personally I think out of every supplementary book listed in this blogpost, the AHPP is probably the most important. AHPP is a crucial resource for PcM, but it is also a monster of a book. It can be intimidating, and sometimes people get lost when they dive directly into the AHPP.
