Privilege To Property

The British Patent System during the Industrial Revolution ...

The British Patent System The grant of exclusive property rights vested in patents developed from medieval guild practices in Europe. Britain in particular is noted for the establishment of a patent system which has been in continuous operation for a longer period than any other in the world.

(PDF) "Sean Bottomley's The British Patent System during ...

During the 1850s the British patent system was subject to major reforms. As part of the reforms, English patents granted between 1617 and 30 September 1852 were identified from the Rolls, sorted into chronological order and then numbered in a single continuous sequence. The sequence runs from GB1 of 1617 to GB14359 of September 1852.

List of British innovations and discoveries - Wikipedia

Hence during the eighteenth-century the patent system emerged in something like its modern form. It provided, in theory, a monopoly position to an inventor for a period of 14 years. Moreover the level of protection afforded by patents and the costs of obtaining this protection did not alter greatly over the period.

The British Patent System during the Industrial Revolution ...

The paper finishes by discussing the market in patent rights and how inventors were able to profit from assigning and licencing their patents.

Abstract It is commonly agreed that until c.1830 English courts routinely ignored ...

The British Patent System during the Industrial Revolution ...

The modern French patent system was created during the Revolution in 1791. Patents were granted without examination since inventor's right was considered as a natural one. Patent costs were very high (from 500 to 1500 francs). Importation patents protected new devices coming from foreign countries. The patent law was revised in 1844 - patent cost was lowered and importation patents were abolished.
