The Chinese, disgusted by their oppressive and inept rulers, demanded change. Some sought constitutional restraints on imperial power and others wanted revolution, but all knew that the current system had failed China. At the end it took just an incident-and almost any would have sufficed-to trigger rapid collapse.

Coming collapse of China somewhat delayed Chang is actually very familiar with the deep workings of the Chinese Party. He is able to explain the deep rooted corruption of a failed political system, i.e. Communism quite well so the average person can see why the United States should not even entertain the thought of adopting socialism or its twin brother communism.

China Expert Peter Zeihan Says China's Collapse on World ...

The question is: when will an economic collapse come? The answer is, sadly: sooner than you'd like. I expect major problems in China likely by the summer or fall. When the economic collapse and china's yuan crash will occur, there won't be an effective help from the U.S., Europe, or Japan, and it will shocking the whole world.

The Coming Collapse Of China

The Coming Collapse of China is a book by Gordon G. Chang, published in 2001, in which he argues that the Communist Party of China is the root cause of many of the People's Republic of China's problems and will cause its collapse in the near future. He claimed that the hidden nonperforming loans of the "Big Four" Chinese State banks would likely bring down China's financial system and its ...

The Coming Collapse of China: Chang, Gordon G ...

I think America may collapse before China does. China uses public banking, and public banking is better for the whole country, economically and socially, than private banking, which is only good for mostly the top 1% or maybe a trickle down to the top 10-20%. This whole thing about going after China is interesting.

Chang believes China has about five years to get its economy in order before it suffers a crippling financial collapse--a timeline he seriously doubts can be met. By failing to complete its reformation, China has maintained an illusion of progress, Chang explains, but in reality has caused more problems than opportunities for would-be entrepreneurs and foreign investors.
