## The Compass of Pleasure: How Our Brains Make Fatty Foods ...

The Compass of Pleasure makes clear why drugs like nicotine and heroin are addictive while LSD is not, how fast food restaurants ensure that diners will eat more, why some people cannot resist the appeal of a new sexual encounter, and much more. Provocative and illuminating, this is a radically new and thorough look at the desires that define us.

The Compass of Pleasure: How Our Brains Make Fatty Foods, Orgasm, Exercise, Marijuana, Generosity, Vodka, Learning, and Gambling Feel So Good

## "Compass of Pleasure": Sex, drugs and volunteer work ...

In The Compass of Pleasure Johns Hopkins neuroscientist David J. Linden explains how pleasure affects us at the most fundamental level: in our brain. As he did in his award-winning book, The Accidental Mind, Linden combines cutting-edge science with entertaining anecdotes to illuminate the source of the behaviors that can lead us to ecstasy but that can easily become compulsive.

## The Compass of Pleasure | Psychology Today

Excerpt: 'The Compass Of Pleasure'. The dark side of pleasure is, of course, addiction. It is now becoming clear that addiction is associated with long-lasting changes in the electrical, morphological, and biochemical functions of neurons and synaptic connections within the medial forebrain pleasure circuit.

The Compass of Pleasure: How Our Brains Make Fatty Foods ...  
David J. Linden, a professor of neuroscience at Johns Hopkins, and the author of The Accidental Mind, adds to this emerging, solipsistic genre with The Compass of Pleasure, a book that focuses entirely on how our brains pursue and process pleasure. He also has put forth a strong candidate for the Guinness record for winding subtitles: "How..."
