America's big cities are one of the main engines of the country's economy. We ranked the 30 biggest metro areas on five measures of economic health. The cities at the top of the list have thriving ...

*Urban world: Mapping the economic power of cities | McKinsey*

Also, cities' power to make economic policy is limited. (City-states like Singapore are an exception.) The policies that most significantly affect urban economies usually come from higher levels of government.

*List of cities by GDP - Wikipedia*

The Economy of Cities (1969) appealed to me not just because of the topic, but also its vintage, as I was born in that year. The book turns out to be another excellent read, mostly because it brings Jacobs's original perspective to an important topic: how do cities grow and develop?

Globally, the three cities that will experience the strongest growth in housing demand will be Beijing, Shanghai, and Tokyo. The economic role of large cities varies widely among regions today—as do their future growth patterns. China's rapid growth is fueled by the continued growth of its megacities and the emergence of new ones.

*ECA: The economic impact of COVID-19 on African cities ...*

The informal economy is the lifeblood of many cities today. It provides jobs for many, in some cities the majority of urban workers, provides flexible services to many urban residents, and makes significant contributions to urban economies.

*Local Economic Development | UN-Habitat*

3D Map: The U.S. Cities With the Highest Economic Output. At over \$21 trillion, the U.S. holds the title of the world's largest economy—accounting for almost a quarter of the global GDP total. However, the fact is that a few select cities are responsible for a large share of the country's total economic output.

*What Can Replace the Economic Output of Cities? - The Big ...*

Yet the implosion of the office economy is not necessarily a black-and-white story of ruination. The resilience of cities is a pillar of economic history. Wars, economic downturns, and catastrophic natural disasters have come and gone, but very few major cities have outright disappeared or even been permanently held down.

*A 3D View: The U.S. Cities With the Highest Economic Output*
