The "Teaching Gap"

It is teaching, not teachers, that must be changed. In The Teaching Gap, the authors draw on the conclusions of the Third International Mathematics and Science Study (TIMSS) -- an innovative new study of teaching in several cultures -- to refocus educational reform efforts. Using videotaped lessons from dozens of randomly selected eighth-grade classrooms in the United States, Japan, and Germany, the authors reveal the rich, yet unfulfilled promise of American teaching and document exactly ...
