Veterinary Clinics Of North America

x Pulmonary function tests (PFTs) are important diagnostic tools that have wide clinical applications in human and veterinary medicine. Widespread use of PFTs in measuring lung volumes in veterinary medicine was historically limited by the need for specialized equipment to accurately perform and interpret these tests, and by lack of patient cooperation.

Ruminant Immunology Guest Editor: Christopher Chase. Few fields have seen such growth in information as immunology. It has been over 15 years since the last issue of Veterinary Clinics of North America: Food Animal Practice contained an issue on ruminant immunology. The aim of this issue was not to provide proscriptive vaccine protocols but to guide the reader to the current concepts and ...
